## APPENDIX B: FINANCIAL DEFINITIONS

### Definitions:

- **Form 990 or 990 EZ** is an annual reporting return that federally tax-exempt organizations must file with the IRS. Depending on the version of the form, it provides information on the filing organization's mission, programs, and finances. 990N forms are not accepted for SCFD eligibility.
- **Statement of Financial Position, also called a Balance Sheet:** This document is a snapshot of an organization's financial position and reports that financial position as of a specific date, e.g. July 31, 2016, rather than over a period of time. Items reported on the balance sheet are limited to: assets, liabilities, and net assets or fund balance. A balance sheet records the status of an organization's resources at a given point in time (often at the fiscal year end date).
- **Statement of Activity, also called a Profit and Loss Statement, a Statement of Revenues and Expenditures, or an Income Statement:** This document shows an organization's activities over time, e.g. one month or one year, rather than at a particular moment in time. This document records the activities of earning revenue or expending resources. This document reports only two items: revenue and expenses; although it may compare budgeted to actual, e.g. budgeted revenue to actual revenue or budgeted expenses to actual expenses.
- **Financial Review:** The objective of a financial "review" conducted by an independent auditor is to examine the nonprofit's financial statements and determine whether the financial statements are consistent with generally accepted accounting principles. A review shares the goals of an audit; however, a review is not conducted with the same level of investigation, analysis, or cost as an independent audit.
- **Independent Audit:** An independent audit is an examination of the financial records, accounts, business transactions, accounting practices, and internal controls of a charitable nonprofit by an "independent" auditor.

**Please Note:** These documents are required for your application to be complete. If you are unsure your organization is recording financials according to nonprofit standards, you can search these terms on the internet to find templates for comparison. All submitted financials must adhere to Generally Accepted Accounting Principles (GAAP).
