

A crisp in the morning air means one thing

It's not pumpkin spice latte. The cool morning air means that the Fall Festivals you love are just around the corner. These events give us time to mark the passage of the seasons, gather with our communities and connect with our heritage and culture. As a major funder of arts, culture and science in the seven-county metro area, the SCFD plays a role in making sure that your pumpkin picking and funnel cake eating are brought to you each year by the organizations you love. Here's a taste of what's in store.
